

Date of Hearing: August 11, 2020

ASSEMBLY COMMITTEE ON LOCAL GOVERNMENT

Cecilia Aguiar-Curry, Chair

SB 929 (Committee on Governance and Finance) – As Introduced February 5, 2020

**SENATE VOTE:** 39-0

**SUBJECT:** Validations.

**SUMMARY:** Validates the organization, boundaries, acts, proceedings, and bonds of the state government, counties, cities, special districts and school districts, among other public bodies.

**EXISTING LAW** allows agencies to make changes to the organization, boundaries, acts, proceedings, and bonds of the state, cities, counties, special districts, school districts, and other local agencies.

**FISCAL EFFECT:** None.

**COMMENTS:**

- 1) **Bill Summary and Background on Validating Acts.** The annual Validating Acts protect investors from the chance that a minor error might undermine the legal integrity of a public agency's bond. Banks, pension funds, and other investors will not buy public agencies' securities, unless they are sound investments. Investors rely on legal opinions from bond counsels to assure the bonds' credit worthiness. Without legislative action to cure technical errors, bond counsels are reluctant to certify bonds as good credit risks. The Validating Acts give legislative protection to public agencies and private investors.

The three Validating Acts cure typographical, grammatical, and procedural errors. They do not forgive fraud, corruption, or unconstitutional acts. A local official who makes a technical error will find reassurance in the Validating Acts, while a corrupt official faces prosecution regardless of the Acts.

By insulating state and local bonds against harmless errors, the Validating Acts save taxpayers' money. Strong legal opinions from bond counsels result in higher credit ratings for state and local bonds. Higher credit ratings allow state and local officials to pay lower interest rates to private investors. Lower borrowing costs save money for taxpayers.

Starting in the mid-1920s, the Legislature passed separate Validating Acts for different types of bonds, several classes of special districts, and various local boundary changes. By the late 1930s, the practice was to pass annual Validating Acts (AB 2842, Bennett, 1939). The current custom and practice is to pass three Validating Acts that retroactively cure public officials' mistakes.

The first two Validating Acts are urgency bills that go into effect when they are chaptered. The **First Validating Act** (SB 928) validates errors made before the date on which the bill is chaptered. The **Second Validating Act** (SB 929) will become operative on September 1, validating mistakes made after SB 928 is chaptered. The **Third Validating Act** (SB 930)

will take effect on January 1, 2020, covering the period between SB 929's operative date and the end of 2020.

- 2) **Urgency Clause.** This bill contains an urgency clause and requires a two-thirds vote of each house.

**REGISTERED SUPPORT / OPPOSITION:**

**Support**

California Association of Local Agency Formation Commissions

California Special Districts Association

California State Association of Counties

East Bay Municipal Utility District

Rural County Representatives of California

**Opposition**

None on file
