

Date of Hearing: June 18, 2025

ASSEMBLY COMMITTEE ON LOCAL GOVERNMENT

Juan Carrillo, Chair

SB 737 (Committee on Local Government) – As Introduced February 21, 2025

SENATE VOTE: 35-0

SUBJECT: Validations.

SUMMARY: Validates the organization, boundaries, acts, proceedings, and bonds of the state government, counties, cities, special districts, and school districts, among other public bodies.

EXISTING LAW allows agencies to make changes to the organization, boundaries, acts, proceedings, and bonds of the state, cities, counties, special districts, school districts, and other local agencies.

FISCAL EFFECT: None.

COMMENTS:

- 1) **Bill Summary and Background on Validating Acts.** The annual Validating Acts protect investors from the chance that a minor error might undermine the legal integrity of a public agency's bond. Banks, pension funds, and other investors will not buy public agencies' securities, unless they are sound investments. Investors rely on legal opinions from bond counsels to assure the bonds' credit worthiness. Without legislative action to cure technical errors, bond counsels are reluctant to certify bonds as good credit risks. The Validating Acts give legislative protection to public agencies and private investors.

The three Validating Acts cure typographical, grammatical, and procedural errors. They do not forgive fraud, corruption, or unconstitutional acts. A local official who makes a technical error will find reassurance in the Validating Acts, while a corrupt official faces prosecution regardless of the Acts.

By insulating state and local bonds against harmless errors, the Validating Acts save taxpayers' money. Strong legal opinions from bond counsels result in higher credit ratings for state and local bonds. Higher credit ratings allow state and local officials to pay lower interest rates to private investors. Lower borrowing costs save money for taxpayers.

Starting in the mid-1920s, the Legislature passed separate Validating Acts for different types of bonds, several classes of special districts, and various local boundary changes. By the late 1930s, the practice was to pass annual Validating Acts [AB 2842 (Bennett), Chapter 593, statutes of 1939]. The current custom and practice is to pass three Validating Acts that retroactively cure public officials' mistakes.

The first two Validating Acts are urgency bills. The First Validating Act (SB 735) validates errors made before the date on which the bill is chaptered. The Second Validating Act (SB 736) will become operative on September 1, validating mistakes made after SB 735 is chaptered. The Third Validating Act (SB 737) will take effect on January 1, 2026, covering the period between SB 736's operative date and the end of 2025.

- 2) **Arguments in Support.** The East Bay Municipal Utility District (EBMUD) writes in support, “Enactment of the Validating Acts helps public agencies, such as EBMUD, by protecting investors from minor errors that might otherwise threaten bonds, boundary changes, and other official acts. As in past years, enactment of the Validating Acts of 2025 would ensure the continued highest possible bond rating, resulting in the lowest possible interest rates on the sale of bonds.”
- 3) **Arguments in Opposition.** None on file.
